HORSECOIN

PRE-ICO

INFORMATION

ABOUT

Horsecoin (HC) is a token based on the ERC20 Token Standard and inherits the technological advantages already gained by ERC20 since its inception. Smart contracts from Ethereum are quickly becoming a viable solution to many of the demands being made by the crypto industry. Ethereum is projected to grow tremendously in 2018 and this will only strengthen Horsecoins position in the market.

OUR VISION

Horsecoin brings the immutability of blockchain to the Pedigree of Horses. Through the technological innovation blockchain brings us we combine the current systems(which are not fraud proof) with the fraud proof blockchain concept. You cannot get tricked into buying a non full blood for the price of a full blood.

OUR COMPANY
HEAVILY BELIEVES THAT

**IF YOU'RE A
GOOD
INVENTOR,
YOU HAVE TO
BE A LITTLE
CRAZY**

STAGES

PRE-ICO

Investors in this stage are also called "The lucky ones who got in early". This stage gives you a tremendous amount of bonuses because of the risk involved. This money is not refundable and will be used for 100% on horsecoin's marketing

ICO

This stage is less risk-full, the bonuses will be lower here. If our soft cap target is not achieved during the duration of the ICO. You will receive your money back.

PUBLIC

After the ICO we will list ourself on exchanges. Risk is low here, also no bonuses

BONUSES

PRE-ICO: 200%

ICO: Ranging between 100% & 25%

PRE-ICO BENEFITS

The pre-ICO investors will get their ETH address build in into the genesis of Horsecoin.

as holder of Horsecoin you have voting rights.

all the ICO coins will be transfered to the new chain when finished. this chain will run PoS which will give you interest on your Horsecoin(estimated 15%)
